

BL-12 black line

250W/RMS 1x12"

The classic amplifier with MLO system and DBS

Black Line series is dedicated to users who prefer common sense over unreliable sophistication. Easy to operate and effective construction requires minimum effort to find the right sound. Intuitional unique [MLO system](#) is an additional help. Combos are easy to match with "TF" series speakers. If you look for a combo with pure form quality with no excess of complicated electronic circuits, the Black Line is your best choice.

SPECIFICATIONS:

Power output: 250W RMS / 4ohm, 185W RMS / 8ohm

Speakers: BASS 12" + switchable ceramic Tweeter

Inputs: universal for passive & active pick-ups

Controls:

GAIN control

VOLUME control

Tone:

BASS and TREBLE equalizer with ["MLO-system"](#) (Middle-range Level Optimization).

PARAMETRIC EQUALIZER for precise control of middle range (120Hz-4kHz)

PRESENCE button - increases transparency of sound

DBS - Dynamic Bass System, increases dynamics and selectivity of bass sound

Other features:

MUTE button

CLIP power amp indicator

OVERLOAD preamp overload indicator

Effect loops: INSERT for serial effect loop (post eq.)

Outputs: LINE, PHONES, EXTERNAL SPEAKER

Protections: short circuit, thermal overload, power overload

Forced cooling system with electronic efficiency control

Dimensions: [H x W x D] 540 x 505 x 385mm

Weight: 24kg
