

## CONGRATULATIONS ON THE PURCHASE OF YOUR NEW TAURUS PEDAL

Thank you for your trust and for selecting Taurus effects pedal.

Taurus is made by musicians for musicians. It's been our philosophy to provide you with the best possible quality, fully professional, superior musical equipment.

While designing this device we've taken in consideration that it requires more than just selecting the correct parameters, best components and hand crafting to achieve the perfect balance between technology and sound. Our very close collaboration with musicians has helped us to design and manufacture high quality equipment which will exceed your expectations and needs.

We at Taurus, extend our gratitude and wish you great musical experience, sonic adventures and explorations with our gear which will become your faithful companion!

**Taurus Vechoor MK-2** has two separate systems: CHORUS and ENHANCER that shape the sound.

The character of chorus is controlled by DEEP and SPEED knobs. ENHANCER is mixed with the separate knob. The sound adjustment deepness is controlled with the common DETUNE potentiometer. As a result it is possible to obtain three mixed signals – the basic sound plus CHORUS and ENHANCER CHORUS. The combination of these three elements gives the great impression of polyphonic sound.

### UNIQUE FEATURES:

**Polarity Auto Detection** – allows using supplies with center-positive and center-negative polarity

**VOLTAGE RANGE 9-12V** please note that analog effects supplied with 12V give 33% higher dynamics than with 9V.

**DC Assistant** - protects from loss of signal. Effect switches automatically to the "bypass mode" in case of disconnection or low voltage of DC supply (<6V).

## EFFECT SPECIFICATION

1. INPUT - mono 1/4" (jack) > impedance: 1M ohm
2. OUTPUT - stereo/mono 1/4" (jack) > impedance: 1K ohm
3. POWER SUPPLY INPUT - DC 9-12V/polarity supply auto detection/ connector domensions 5,5x2,1mm.  
**Warning!** Only stabilised power supply >100mA must be used
4. DEPTH - determines the degree of CHORUS modulation
5. A-NORMAL-B - three way mode switch (Flanger Modern A - Chorus - Flanger Modern B )
6. ENHANCER - level of extended polyphony in low frequency range
7. RATE - controls speed of CHORUS modulation
8. DETUNE - determines the degree of CHORUS and ENHANCER detuning
9. FOOT SWITCH - true-bypass when on the "Off "position in mono mode  
- active bypass when in stereo mode
10. Effect „ON” indicator

Dimensions: (H x W x D) 65 x 96 x 144mm

**Sposób podłączenia wtyku jack w opcji pracy stereo**

## EXAMPLES OF SETTINGS

1

**Classic CHORUS sound**

2

**Explore the deepness of the ENHANCER**

3

**MODERN-flange A**

4

**MODERN-flange B**
