

EFFECT SPECIFICATION

Dear Friends,

We proudly introduce our new boutique line of products, the Taurus Silver Line of bass pedal effects, which shares all Taurus's DNA and is designed to satisfy even the most demanding musicians. Our Silver Line includes four heavy duty stomp boxes labeled Abigar (Multi-Drive), Zebu, (Reverb-Delay), Vechoor (Multi Chorus-Flanger) and Tux (Compressor-Limiter). Individually engineered with the specific objective of giving you unprecedented control over the sound. It has been said that "Passion drives you to fulfill your dreams". Our founder, head of the corporate research and development, sound and electronic engineer and most of all musician, is spreading his passion and dedication on all of us. Box Electronics, makers of Taurus is fulfilling its dreams and wants to give you the tools to fulfill yours. Our passion supported by the latest technology, best electronic components, hand crafted manufacturing and quality control process guarantees superior quality and complete satisfaction. For the past 27 years, our philosophy remains to provide you with the upmost professional service and the best musical gear. Try our Taurus products, you won't be disappointed. We welcome you to our web site which has received a major face lift and has been extended to include more in depth technical product information, links to users, applications, silver line reviews, testimonials and much more.

The ZEBU it is a fusion of Delay and Reverb stereo digital effects, powered by high quality 24bit Digital Signal Processor. The Zebu design allows to use both effects simultaneously and mix them with the original sound of your instrument.

Features:

1. INPUT - mono 1/4" (jack)
2. OUTPUT - stereo/mono 1/4" (jack)

3. POWER SUPPLY - External 12V/100mA

Internal voltage converter (12V to 24V) for greater dynamic range

Warning ! Only the power supply included with the effect must be used.

4. REPEAT - controls the number of repeats (feedback) in the DELAY effect - (0-90%)
5. DELAY - time range (50-1000ms) 60bpm - 1200bpm
6. REVERB - time range (0.5 -10s)
7. BALANCE - mix between REVERB and DELAY
8. EFFECT - balance between effect and the original signal (WET / DRY)
9. FOOT SWITCH - true bypass when on the "Off "position in mono mode
- active bypass mode when in stereo mode

10. LED - power indicator

Warning! The effect is turned off only when the power supply is unplugged.

DSP specification:

processor DSP: 24/34Bit
AUDIO ADC/DAC resolution: 20/20Bit
sampling rate: 41.67 kHz

Thank you for your trust and for choosing Taurus Zebu
